

# SEALED MOTOR

## Reach New Limits with the Talon Sealed Motor

The industries-best motor engineering has come together to develop a sealed motor that leads the competition.

Capable of extreme wight-on-bit capacities, perfect for the most difficult for snubbing operations, the most heavy-duty power sections and flow rates comparable to larger tool sizes, you can now run your operations to limits never seen before.

### TAPERED CONNECTIONS

to enhance fatigue life with modern BHAs

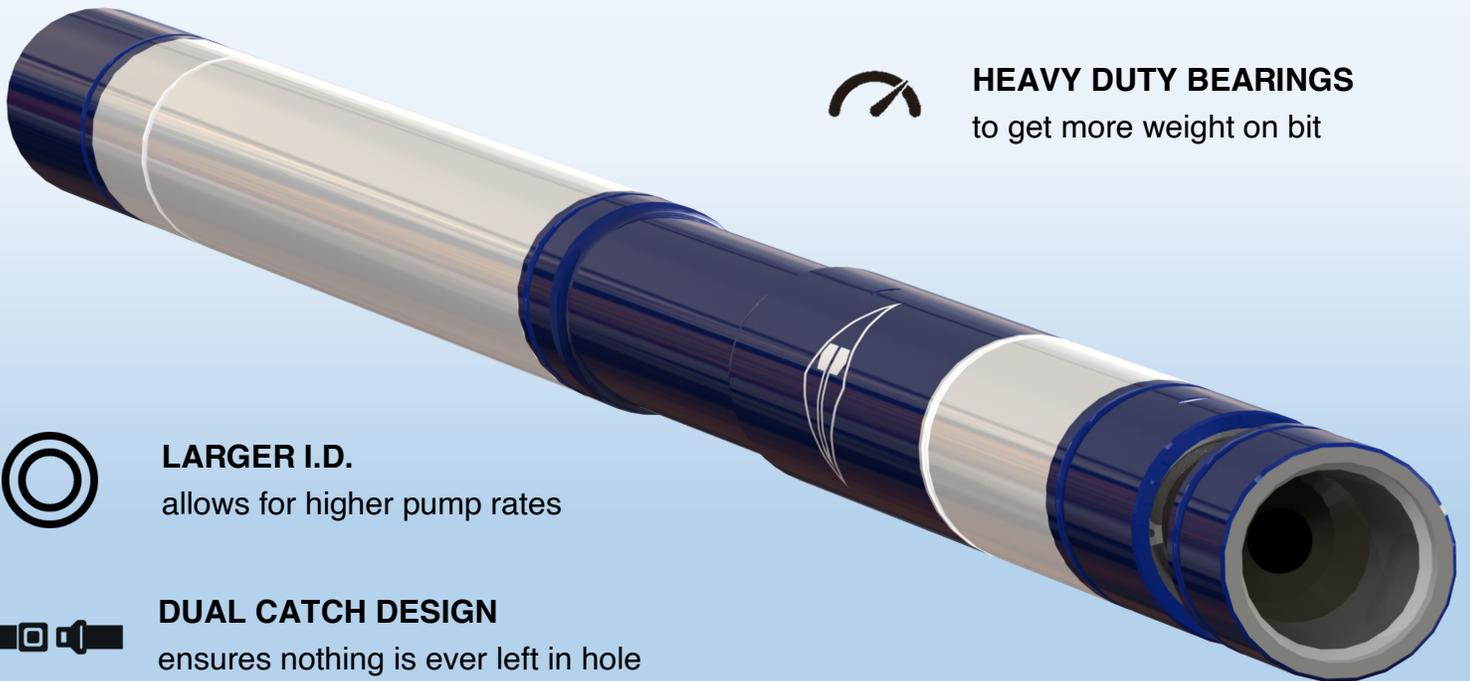

### FULLY SEALED BEARING PACK

ensuring no contamination and long service life

### HEAVY DUTY BEARINGS

to get more weight on bit

### LARGER I.D.

allows for higher pump rates

### DUAL CATCH DESIGN

ensures nothing is ever left in hole

### HD POWER SECTIONS & METAL TO METAL

a tough flexshaft and strong connections give option for the power section of your choice
